Dear Students:

Thank you for taking the time to send me your letters regarding our government's Second Career Strategy. I appreciate hearing from all of you about the program, and I am grateful to you for sharing your individual stories with me.

Our government understands that continued prosperity in today's global economy depends on giving all workers the opportunities and tools they need to reach their full potential. That is why we have funded new initiatives to encourage economic growth and job creation and increase the number of skilled workers.

My colleagues and I are always mindful of your perspectives. We will do everything we can to help families and businesses get through this difficult period, and help our economy emerge stronger.

Thank you again for writing and for sharing your personal experiences with me. Please accept my best wishes.

Yours truly,
