

WILLIS COLLEGE
OF BUSINESS, HEALTH AND TECHNOLOGY
Over 110 Years of Career Training Excellence!

2nd Career Training at its BEST!

-- Jeff Nolan – Programmer/Analyst I.S. – The Ottawa Hospital

“My previous technical I.T. skills became obsolete in the Ottawa area. With the economy in the dumps and lots of competition in the job search, I returned to school and graduated from Willis’s Microsoft .NET Technologist Specialist program within 5 months.

I do have extensive previous experience in the IT field however, What I learned at Willis College gave me current new updated skills which was the breaker in being selected for a Programmer/Analyst position within 2 months of graduating. I now work at the Ottawa Hospital. Thank you Willis College!
